

Pranshu Sahu

Full-Stack Developer | JavaScript · React · Node.js · SQL

✉ workspace.pranshu@gmail.com 🔗 portfolio-25-gamma.vercel.app/  pranshu-sahu  Praanshuu

SUMMARY

Full-stack developer focused on building scalable and user-centric web applications using React, Next.js, Node.js, and PostgreSQL. Interested in product engineering, system design, performance optimization, and AI-assisted development workflows.

EDUCATION

B.Tech in Computer Science Engineering, Bhilai Institute of Technology, Durg 08/2022 – Present | Durg, Chhattisgarh

PROFESSIONAL EXPERIENCE

Full-Stack & DevOps Research Intern, Indian Institute of Technology (IIT) Bhilai 01/2026 – 04/2026 | Bhilai, Chhattisgarh

RADCOM, Israel (Industry Project)

PAM (Performance Analysis & Monitoring):

- Performed EDA on **large-scale telecom data** to analyze protocol behavior, latency trends, and execution patterns
- Developed **linear regression models** across **7+ protocols** to evaluate execution time and identify performance bottlenecks
- Developed analytics dashboards with **15+ visualizations** for latency, protocol interactions, and performance metrics

PCAP Analysis Tool:

- Contributed to a **packet capture analysis platform** by building **backend APIs** and processing protocol-level packet data
- Developed **8+ interactive visualizations** including flow graphs, connection maps, timelines, and protocol analysis dashboards
- Integrated **LLM-based querying** features to enable intelligent exploration and analysis of packet-level network data

Autograder:

- Developed a **full-stack LMS** with role-based workflows and a **containerized evaluation pipeline** for secure code execution
- Optimized the submission pipeline to support **330+ concurrent users** and **8,000+ evaluations**
- Built analytics dashboards with **15+ charts** for performance trends, error analysis, and plagiarism detection

PROJECTS

Collex - Campus Marketplace & Roommate Finder, Next.js, PostgreSQL (Neon), Clerk Auth, Tailwind CSS, Shadcn UI

<https://collex-ubej.vercel.app/> 🔗

- Built a campus marketplace and roommate finder platform with **authentication**, listings, **real-time chats** and notifications
- Implemented **OCR-based student verification**, **subscription models**, and matchmaking workflows for verified users

Certificate Verification & Event Management System, React, Node.js, REST APIs, RBAC, PostgreSQL, Tailwind CSS

<http://verify-aura-frontend.vercel.app/> 🔗

- Developed an event management system with **RBAC** and admin dashboards, managing **250+ participants** across multiple events
- Built **REST APIs** for issuance, validation, and revocation, enabling **instant certificate verification (< 2 seconds)** via **unique IDs**

Food Business Website, HTML, CSS, JavaScript, Lenis

<https://swaad-and-stories.vercel.app/> 🔗

- Designed and developed a modern responsive website with clean UI, visual hierarchy, and user-friendly premium experience.

SKILLS

Programming Languages: Python, JavaScript, C

Web Technologies: React.js, Node.js, Express.js, Next.js, HTML, CSS, Tailwind CSS

Databases: PostgreSQL, MongoDB

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Computer Networks, Operating Systems

Tools & Platforms: Git, Linux, Docker, Postman, Vercel, Render

Data Analysis: Pandas, NumPy, Matplotlib, EDA

LEADERSHIP & RESPONSIBILITIES

General Manager and Technical Head – TechnoHub Club

06/2024 – Present

- Led and organized **4+ technical events**, workshops, and peer-learning sessions.
- Managed **official club website** and supported digital operations for events and outreach

Graphics Lead – TEDxBITD

04/2025 – 10/2025

- Led a 6-member team to deliver **60+ event branding assets** within tight timelines, coordinating with cross-functional teams
- Delivered **600+ design outputs** across social media, branding, and event collateral, ensuring a cohesive visual identity
